Section 2.1 - Treasury Bills

General Characteristics

The following general characteristics apply to Government of Canada treasury bills:

- As of September 18, 1997, treasury bills are issued every two weeks.
- Primary distributors submit treasury bill tenders electronically to the Bank of Canada.
- Treasury bills are generally issued with a term to maturity of 98 days, 168 or 182 days and 350 or 364 days. For cash management reasons, treasury bills may also be issued (usually with a term to maturity of less than 91 days).
- Treasury bills are priced at a discount. The return is the difference between the purchase price and the par value. The rate of return (yield) is conventionally calculated by dividing this difference by the purchase price and expressing the result as an annual percentage rate, using a 365-day year. The rate of return is computed as follows:

$$\text{yield} = \frac{\text{par value - purchase price}}{\text{purchase price}} \times \frac{365 \times 100}{\text{term}}$$

- Effective April 2008, all new issues of treasury bills are issued in book-entry form only.
- The full amount of the treasury bills are registered in fully registered form in the name of "CDS & Co.", a nominee of the Canadian Depository for Securities Limited (CDS) and recorded in book-entry form by the registrar.
- Principal is paid in lawful money of Canada to CDS & Co.
- Treasury bills must be purchased, transferred or sold directly or indirectly through a participant of the Debt Clearing/Money Market System (CDSX) operated by CDS.

Note: The purchase price of the bond includes inflation compensation and accrued interest. Inflation compensation accrues from the original issue date of December 10, 1991. Interest accrues from the last interest payment date.

Interest and Final Payment:
The bonds bear interest adjusted in relation to the Consumer Price Index for Canada. Interest consists of both an inflation compensation component ("Inflation Compensation") calculated based on Principal and payable at maturity and a cash entitlement ("Coupon Interest") calculated based on Principal and accrued Inflation Compensation. Coupon Interest is payable in semi-annual instalments on June 1 and December 1 (the "Coupon Payment Dates")

commencing June 1, 1992. Coupon Interest is calculated by multiplying one-half of the coupon of 4.25% per annum by the sum of the Principal and the Inflation Compensation accrued from the date the first Bond was issued, namely December 10, 1991(the "Original Issue Date") to the relevant Coupon Payment Date. At maturity, in addition to Coupon Interest payable on such date, a final payment (the "Final Payment") equal to the sum of Principal plus Inflation Compensation accrued from the Original Issue Date to maturity will be made.

Indexing Process:
An index ratio (the "Index Ratio") is applied to calculate both Coupon Interest and Inflation Compensation. The index Ratio for any date ("Date") is defined as the ratio of the reference CPI applicable to such Date ("Ref CPI_{Date}") divided by the reference CPI applicable to the Original Issue Date ("Ref CPI_{Base}"). The reference CPI for the first day of any calendar month is the CPI for the third preceding calendar month. For example, the reference CPI for January 1, 1996 is the CPI for October 1995. The reference CPI for any other day in a month is calculated by linear interpolation between the reference CPI applicable to the first day of the month in which the day falls and the reference CPI applicable to the first day of the month immediately following.

CPI (Base)	83.07713
CPI (Dec. 31, 2012)	122.19355
Index Ratio	1.47084
Original Issue Par Value as at Dec. 1, 2012	5,175,000,000.00
- Interest Payment (Dec. 1, 2012)	161,490,222.00
- Interest Earned per $1M (Dec. 1, 2012)	31,205.84
- Index Ratio (Dec. 1, 2012)	(1.46851)
Inflation Adjustment:	2,436,597,000
Adjusted Par Value:	7,611,597,000

Calculation of Interest:
Inflation Compensation accrued to any Date is calculated by first multiplying the Principal by the Index Ratio applicable to that Date ("Index $Ratio_{Date}$") and then subtracting the Principal. Coupon Interest is calculated by multiplying one-half of the coupon of 4.25% per annum by the sum of the Principal and the Inflation Compensation accrued from the Original Issue Date to the relevant Coupon Payment Date.

Registration and Denomination:
A book-entry position for the full amount of the Bonds was issued, at closing in registered form in the name of a nominee of The Canadian Depository for Securities Limited ("CDS"). Individual certificates evidencing the Bonds will not be available to Bond owners. The Bonds must be purchased, transferred or sold directly or indirectly through a participant in the CDS book-entry systems and only in denominations of $1,000 and integral multiples thereof.

Note: The purchase price of the bond includes inflation compensation and accrued interest. Inflation compensation accrues from the original issue date of December 7, 1995. Interest accrues from the last interest payment date.

Interest and Final Payment:
The bonds bear interest adjusted in relation to the Consumer Price Index for Canada. Interest consists of both an inflation compensation component ("Inflation Compensation") calculated based on Principal and payable at maturity and a cash entitlement ("Coupon Interest") calculated based on Principal and accrued Inflation Compensation. Coupon Interest is payable in semi-annual instalments on June 1 and December 1 (the "Coupon Payment Dates") commencing June 1, 1996. Coupon Interest is calculated by multiplying one-half of the coupon of 4.25% per annum by the sum of the Principal and the Inflation Compensation accrued from the date the first Bond was issued, namely December 7, 1995 (the "Original Issue Date") to the relevant Coupon Payment Date. At maturity, in addition to Coupon Interest payable on such date, a final payment (the "Final Payment") equal to the sum of Principal plus Inflation Compensation accrued from the Original Issue Date to maturity will be made.

Indexing Process:
An index ratio (the "Index Ratio") is applied to calculate both Coupon Interest and Inflation Compensation. The Index Ratio for any date ("Date") is defined as the ratio of the reference CPI applicable to such Date ("Ref PI_{Date}") divided by the reference CPI applicable to the Original Issue Date ("Ref CPI_{Base}"). The reference CPI for the first day of any calendar month is the CPI for the third preceding calendar month. For example, the reference CPI for January

1, 1996 is the CPI for October 1995. The reference CPI for any other day in a month is calculated by linear interpolation between the reference CPI applicable to the first day of the month in which the day falls and the reference CPI applicable to the first day of the month immediately following.

CPI (Base)	87.82571
CPI (Dec. 31, 2012)	122.19355
Index Ratio	1.39132
Original Issue Par Value as at Dec. 31, 2012:	5,250,000,000.00
- Interest Payment (Dec. 1, 2012)	154,972,597.50
- Interest Earned per $1M (Dec. 1, 2012)	29,518.59
- Index Ratio (Dec. 1, 2012)	(1.38911)
Inflation Adjustment:	2,054,430,000
Adjusted Par Value:	7,304,430,000

Calculation of Interest:
Inflation Compensation accrued to any Date is calculated by first multiplying the Principal by the Index Ratio applicable to that Date ("Index $Ratio_{Date}$") and then subtracting the Principal.

Coupon Interest is calculated by multiplying one-half of the coupon of 4.25% per annum by the sum of the Principal and the Inflation Compensation accrued from the Original Issue Date to the relevant Coupon Payment Date.

Registration and Denomination:
A book-entry position for the full amount of the Bonds was issued at closing in registered form in the name of a nominee of The Canadian Depository for Securities Limited ("CDS"). Individual certificates evidencing the Bonds will not be available to Bond owners. The Bonds must be purchased, transferred or sold directly or indirectly through a participant in the CDS book-entry systems and only in denominations of $1,000 and integral multiples thereof.

Note: The purchase price of the bond includes inflation compensation and accrued interest. Inflation compensation accrues from the original issue date of March 8, 1999. Interest accrues from the last interest payment date.

Interest and Final Payment:
The bonds bear interest adjusted in relation to the Consumer Price Index for Canada. Interest consists of both an inflation compensation component ("Inflation Compensation") calculated based on Principal and payable at maturity and a cash entitlement ("Coupon Interest") calculated based on Principal and accrued Inflation Compensation. Coupon Interest is payable in semi-annual instalments on June 1 and December 1 (the "Coupon Payment Dates") commencing June 1, 1999. Coupon Interest is calculated by multiplying one-half of the coupon of 4% per annum by the sum of the Principal and the Inflation Compensation accrued from the date the first Bond was issued, namely March 8, 1999 (the "Original Issue Date") to the relevant Coupon Payment Date. At maturity, in addition to Coupon Interest payable on such date, a final payment (the "Final Payment") equal to the sum of Principal plus Inflation Compensation accrued from the Original Issue Date to maturity will be made.

Indexing Process:
An index ratio (the "Index Ratio") is applied to calculate both Coupon Interest and Inflation Compensation. The Index Ratio for any date ("Date") is defined as the ratio of the reference CPI applicable to such Date ("Ref PI_{Date}") divided by the reference CPI applicable to the Original Issue Date ("Ref CPI_{Base}"). The reference CPI for the first day of any calendar month is the CPI for the third preceding calendar month. For example, the reference CPI for January 1, 2000 is the CPI for October 1999. The reference CPI for any other day in a month is calculated by linear interpolation between the reference CPI applicable to the first day of the month in which the day falls and the reference CPI applicable to the first day of the month immediately following.

CPI (Base)	91.38249
CPI (Dec. 31, 2012)	122.19355
Index Ratio	1.33717
Original Issue Par Value as at Dec. 1, 2012	5,800,000,000.00
- Interest Payment (Dec. 1, 2012)	154,865,800.00
- Interest Earned per $1M (Dec. 1, 2012)	26,701.00
- Index Ratio (Dec. 1, 2012)	(1.33505)
Inflation Adjustment:	1,955,586,000
Adjusted Par Value:	7,755,586,000

Calculation of Interest:
Inflation Compensation accrued to any Date is calculated by first multiplying the Principal by the Index Ratio applicable to that Date ("Index $Ratio_{Date}$") and then subtracting the Principal.

Coupon Interest is calculated by multiplying one-half of the coupon of 4% per annum by the sum of the Principal and the Inflation Compensation accrued from the Original Issue Date to the relevant Coupon Payment Date.

Registration and Denomination:
A book-entry position for the full amount of the Bonds was issued at closing in registered form in the name of a nominee of The Canadian Depository for Securities Limited ("CDS"). Individual certificates evidencing the Bonds will not be available to Bond owners. The Bonds must be purchased, transferred or sold directly or indirectly through a participant in the CDS book-entry systems and only in denominations of $1,000 and integral multiples thereof.

Note: The purchase price of the bond includes inflation compensation and accrued interest. Inflation compensation accrues from the original issue date of June 4, 2007. Interest accrues from the last interest payment date.

Interest and Final Payment:
The bonds bear interest adjusted in relation to the Consumer Price Index for Canada. Interest consists of both an inflation compensation component ("Inflation Compensation") calculated based on Principal and payable at maturity and a cash entitlement ("Coupon Interest") calculated based on Principal and accrued Inflation Compensation. Coupon Interest is payable in semi-annual instalments on June 1 and December 1 (the "Coupon Payment Dates") commencing December 1, 2007. Coupon Interest is calculated by multiplying one-half of the coupon of 2% per annum by the sum of the Principal and the Inflation Compensation accrued from the date the first Bond was issued, namely June 4, 2007 (the "Original Issue Date") to the relevant Coupon Payment Date. At maturity, in addition to Coupon Interest payable on such date, a final payment (the "Final Payment") equal to the sum of Principal plus Inflation Compensation accrued from the Original Issue Date to maturity will be made.

Indexing Process:
An index ratio (the "Index Ratio") is applied to calculate both Coupon Interest and Inflation Compensation. The Index Ratio for any date ("Date") is defined as the ratio of the reference CPI applicable to such Date ("Ref CPI_{Date}") divided by the reference CPI applicable to the Original Issue Date ("Ref CPI_{Base}"). The reference CPI for the first day of any calendar month is the CPI for the third preceding calendar month. For example, the reference CPI for January 1, 1996 is the CPI for October 1995. The reference CPI for any other day in a month is calculated by linear interpolation between the reference CPI applicable to the first day of the month in which the day falls and the reference CPI applicable to the first day of the month immediately following.

CPI (Base)	111.21849
CPI (Dec. 31, 2012)	122.19355
Index Ratio	1.09868
Original Issue Par Value as at Dec. 1, 2012	6,550,000,000.00
- Interest Payment (Dec. 1, 2012)	71,849,570.00
- Interest Earned per $1M (Dec. 1, 2012)	10,969.40
- Index Ratio (Dec. 1, 2012)	(1.09694)
Inflation Adjustment:	646,354,000
Adjusted Par Value:	7,196,354,000

Calculation of Interest:
Inflation Compensation accrued to any Date is calculated by first multiplying the Principal by the Index Ratio applicable to that Date ("Index $Ratio_{Date}$") and then subtracting the Principal.

Coupon Interest is calculated by multiplying one-half of the coupon of 2% per annum by the sum of the Principal and the Inflation Compensation accrued from the Original Issue Date to the relevant Coupon Payment Date.

Registration and Denomination:
A book-entry position for the full amount of the Bonds was issued at closing in registered form in the name of a nominee of The Canadian Depository for Securities Limited ("CDS"). Individual certificates evidencing the Bonds will not be available to Bond owners. The Bonds must be purchased, transferred or sold directly or indirectly through a participant in the CDS book-entry systems and only in denominations of $1,000 and integral multiples thereof.

Section 3.1 - Canada Savings Bonds

General Characteristics

The following general characteristics apply to Canada Savings Bonds (CSBs):

- Canada Savings Bonds are offered exclusively through the Payroll Savings Program (includes both payroll deduction and pre-authorized debit or "PAD" for former Payroll Savings Program customers).
- As of the November 2012 issue, Canada Savings Bonds have a term-to-maturity of three years.
  - Issues from November 1997 to December 2011 inclusive had an original 10-year term-to-maturity, which was automatically extended a further 10 years at maturity.
  - The original term-to-maturity of issues changed several times prior to 1997. Series S46-S51 had an original term-to-maturity of 12 years, which was automatically extended a further 10 years at maturity.
- Principal and accrued interest, if applicable, is payable on demand without charge in lawful money of Canada at any office in Canada of an authorized redemption or sales agent.
- Monthly redemption values for the current year are available in the Monthly Redemption Value Tables (Form S40) published regularly (or as required) by the Bank of Canada.
- Interest rates announced are guaranteed. However, if market conditions warrant, the rates can at any time be increased over a specified period.
- Canada Savings Bonds are non-transferable and non-assignable except in certain specific circumstances.
- Canada Savings Bonds are non-callable.
- Canada Savings Bonds are issued as Compound Interest "C" Bonds.

Interest Payments:

Bonds Purchased Pursuant To The Payroll Savings Program or PAD <u>that are not Registered Bonds</u> will:

(i) accrue simple interest daily based on the daily closing principal balance outstanding and interest will be credited on each annual anniversary of the issue date for a particular series until the earlier of maturity of that particular series or redemption by the Bondholder. If CSBs Purchased Pursuant To The Payroll Savings Program Or PAD are redeemed in whole or in part prior to maturity, simple interest will also be credited for the period between the last annual anniversary date and the date of redemption; and,

(ii) accrue, in addition to the simple interest described in (i), compound interest daily based on the daily closing credited interest balance outstanding for a particular series until the earlier of maturity of that particular series or redemption by the Bondholder. Accrued compound interest will be credited on each annual anniversary of the issue date for a particular series until the earlier of maturity of that particular series or redemption by the Bondholder. Compound interest shall initially be payable only after the first annual anniversary of the issue date; but,

(iii) notwithstanding (ii), if CSBs Purchased Pursuant To The Payroll Savings Program Or PAD are purchased using reinvested funds, and are redeemed in whole or in part prior to maturity, accrued compound interest will also be credited for the period between the last annual anniversary date and the date of redemption.

Section 3.2 - Canada Premium Bonds

General Characteristics

The following general characteristics apply to Canada Premium Bonds (CPBs):

- As of the November 2012 issue, Canada Premium Bonds have a term-to-maturity of three years.
    - Issues from November 2000 to December 2011 inclusive have a 10-year term-to-maturity.
    - Issues from November 1998 to April 2000 inclusive had an original 10-year term-to-maturity, which was automatically extended a further 10 years at maturity.
- Principal and accrued interest, if applicable, will be paid without charge in lawful money of Canada at any office in Canada of an authorized redemption or sales agent.
- As of November 2012, all Canada Premium Bonds are cashable at any time with interest paid up to the last annual anniversary date of the bond. Prior to November 2012, bonds were only cashable on the anniversary date and a 30-day window thereafter. (CPBs redeemed during the 30 days following the annual anniversary of the issue date did not receive interest for the period following the annual anniversary date.)
- Redemption values for the current year are available in the Redemption Value Tables (Form S40) published regularly (or as required) by the Bank of Canada.
- Interest rates announced are guaranteed. However, if market conditions warrant, the rates can at any time be increased for a specified period.
- Canada Premium Bonds are non-transferable and non-assignable except in certain specific circumstances.
- Canada Premium Bonds are non-callable.
- Since November 1998, beginning with Series P3, Canada Premium Bonds are issued in two forms: Regular Interest "R" Bonds and Compound Interest "C" Bonds.

Interest Payments:

Regular Interest "R" Bonds (beginning with Series P3)
Regular Interest Bonds will accrue simple interest monthly, based on the monthly closing principal balance outstanding and the interest will be credited on each annual anniversary of the issue date for a particular series until the earlier of maturity of that particular series or redemption by the registered owner. Simple interest shall be payable to the registered owner on each annual anniversary of the issue date for a particular series until maturity. If the bond is redeemed prior to maturity, simple interest shall be payable to the registered owner up to the last annual anniversary date of the bond.

Compound Interest "C" Bonds
Compound Interest Bonds will accrue, in addition to simple interest, compound interest monthly based on the monthly closing credited interest balance outstanding for a particular series until the earlier of maturity of that particular series or redemption by the registered owner. Accrued compound interest will be credited on each annual anniversary of the issue date for a particular series until maturity. If the bond is redeemed prior to maturity, simple and compound interest shall be payable to the registered owner up to the last annual anniversary date of the bond.
